

. MARIAN GROSU

DESIGNER //
MOTION GRAPHICS ARTIST

I do create videos that grab viewer attention.

I am a creative person who loves to really get involved and put some heart into everything and I do and make sure that I maximize every possibility before giving up.

I am in this industry for more than over 7 years, and I'm here because I've chosen to and not because I've been pushed or constrained to do so.

I like to take notes, which most of the time I am the only person understanding them.

To do what I love everyday is how success is looking like, and I am very grateful for that.
